

2023 DELAWARE SOYBEAN YIELD CONTEST

PURPOSE: The purpose of the Delaware Soybean Yield Contest is to gather data on practices incorporated in producing high soybean yields while recognizing the individuals who have achieved such yields.

ELIGIBILITY: Any grower with a contest area (field) located entirely in the state of Delaware. *Only one full season and one double crop entry per farmer will be accepted.* Directors of the Delaware Soybean Board are eligible to participate.

CATEGORIES: A state winner will be awarded for dry land (NEW), full season and double crop production. Full season and double crop winners will be awarded for each county (no county dryland winners). Any production method such as tillage and irrigation may be used for full season or double crop categories.

RULES:

1. Application and payment of \$30/entry must be submitted. (All checks should be made payable to Delaware Soybean Board)
2. Two acres in one block (example: 180' x 484' = 2 acres) within the physical boundaries of Delaware shall be selected by the grower. Test area may be measured after check. Harvested area must include complete passes through the field.
3. A designated supervising agent (*cannot be the grower or affiliated with industry supplier or sales of ag products*) shall:
 - a. Measure the test area
 - b. Be present when the test area is harvested
 - c. Supervise weighing on state-inspected scales or approved weigh station (*a weigh wagon can be used on site if needed*)
 - d. Attach original weight ticket (no copy) to harvest report form
 - e. Sign the report form
4. Moisture content shall be obtained on a state-approved moisture meter.
5. Yields will be calculated on the basis of USDA No. 1 soybeans. Yields will be corrected on the basis of 13% moisture and 1% foreign matter.
6. All yields exceeding 100 bushels are required to be rechecked. Recheck must come from a continuous 2 acres directly adjacent to the original check. Supervising agent must be present for the recheck and use the same procedures as the original check. Results of recheck will be used as the official contest entry. Failure to recheck will disqualify entry.
7. Double crop soybeans must be planted after another crop, such as wheat, rye, peas or other crop.

PUBLICITY: Applicants agree to share production information. Production practices used by participants may be published. Winners agree to their photo being used in Delaware Soybean Board communications.

AWARDS: All winners will be awarded at Delaware Ag Week in January. State winners are not eligible for county prizes. Any applicant who achieves a yield of 100 bushels or more receives an additional award.

✓ STATE DRY LAND (new)	\$1,000
✓ STATE FULL SEASON	\$1,000
✓ STATE DOUBLE CROP	\$1,000
✓ COUNTY WINNER FULL SEASON	\$250
✓ COUNTY WINNER DOUBLE CROP	\$250
✓ YIELD OF 100+ BUSHELS AWARD	TBA
